

## Hawaiian Flower Flip Flops

Step out in style in your one of a kind flip flop summer creation.

### *Materials:*

- Pair of flip flops
- Colorful felt
- Curling ribbon
- Glitter
- Marker
- Pair of scissors
- Glue

### *Method:*

- Print out this pattern of a hibiscus flower and cut it out. (see next page)
- Trace the pattern onto the felt with a marker pen.
- Cut out the flower shape.
- Draw one tiny line (1/4 inch) horizontally in the middle of your flower.
- Draw another right below it.
- Using these lines as a guide, make two little incisions with your pair of scissors.
- Create a petal design using the glue and glitter.
- Cut two 12 inch or so pieces of curling ribbon.
- Attach the flower to your flip-flop by threading one piece of curling ribbon through the slits so that it ties in the front.
- Use your pair of scissors to curl the ends of the ribbon.
- Now repeat the process with the other flip-flop.
